

## 实验室专用辅助生殖耗材产品

Human Assisted Reproductive Laboratory (IVF) Product

01

### 捡卵皿

Ovum Picking Dish

用于将圆底试管中的卵泡液倒入捡卵皿中，在体视显微镜下准确挑捡卵子；鹰嘴结构的设计让废液的倾倒更加流畅及安全。同时，捡卵皿盖可以作为临时废液储存器。

It is used for Pour follicular fluid from round bottom tube into ovum picking dish, pick up ovum under stereoscope accurately; olecranon structure, design makes the liquid waste dumping safer and more smoothly. At the same time, the ovum picking dish cover can be the temporary storage container of liquid waste.

## 实验室专用辅助生殖耗材产品

### Human Assisted Reproductive Laboratory (IVF) Product

#### ▶ 产品简介 Product Introduction

我公司生产的辅助生殖耗材系列产品从原材料的选择到成品生产的各个环节，均经过严格的质量认证和安全检测，为配子和胚胎提供更安全的培养条件和发育环境。根据不同操作流程的特点，精心设计、严格制造，保证胚胎和配子的安全。

Our human assisted reproductive laboratory (IVF) products are undergo strict quality certification and safety testing in all aspects from raw material selection to finished product, which provide more security culture condition and development environment for the gametes and embryos. According to the characteristics of different operation process, elaborate design, precision manufacturing, to ensure the safety of embryos and gametes.

#### ▶ 特点 Characteristics

1. 各种皿类设有安全槽防止液体流出造成污染。  
The dishes at design with safety groove to prevent liquid overflow and pollution.
2. 产品达到无菌等级（辐射灭菌）SAL1\*10<sup>-6</sup>，无致热源，20Eu/Device。  
Product sterility level achieve SAL1\*10<sup>-6</sup> (radiation sterilization). No Pyrogen, 20Eu/Device.
3. 材料采用美国药典（USP）Class VI级测试聚苯乙烯及其他专用材料。  
The polystyrene and other special materials are under United States Pharmacopeia (USP) Class VI grade.
4. 严格控制生产工艺，制成品经过鼠胚实验及精子存活实验等检查。  
Strictly control the production process, the finished product pass mouse embryo testing and sperm survival testing, etc.
6. 通过欧盟ISO13485质量管理体系认证，IVF产品CE标识。  
Through the EU ISO13485 quality management system certification, CE mark on the IVF product.

02

### 多用途培养皿

#### Multi-purpose Culturing Dish

用于捡卵、洗卵、消化脱卵子外的颗粒细胞。功能分区，一个培养皿完成三步操作，空间得到有效利用的同时，让试验流程更加的便捷化。

It is used for picking up ovum, washing ovum, digesting granular cell off the ovum.

Function division, one culturing dish can finish three steps, make the test process more convenient while space is used effectively.

	品名	规格/Volume	包装方式/Package
01	捡卵皿 Ovum picking dish	Φ102*20mm (皿/Dish) Φ108*7mm (皿盖/Cover)	独立包装 Individual Package
02	多用途培养皿 Multi-purpose culturing dish	Φ52*12mm (皿/Dish) Φ53.5*5mm (皿盖/Cover)	独立包装 Individual Package

	品名	规格/Volume	包装方式/Package
03	胚胎培养皿 Embryo culturing dish	Φ52*12mm (皿/Dish) Φ53.5*5mm (皿盖/Cover)	独立包装 Individual Package
04	显微操作皿 Micro-operating dish	Φ59*9mm (皿/Dish) Φ60*6.2mm (皿盖/Cover)	独立包装 Individual Package

03

### 胚胎培养皿

Embryo Culturing Dish

用于胚胎微滴培养用。

Used for embryo droplet culturing.

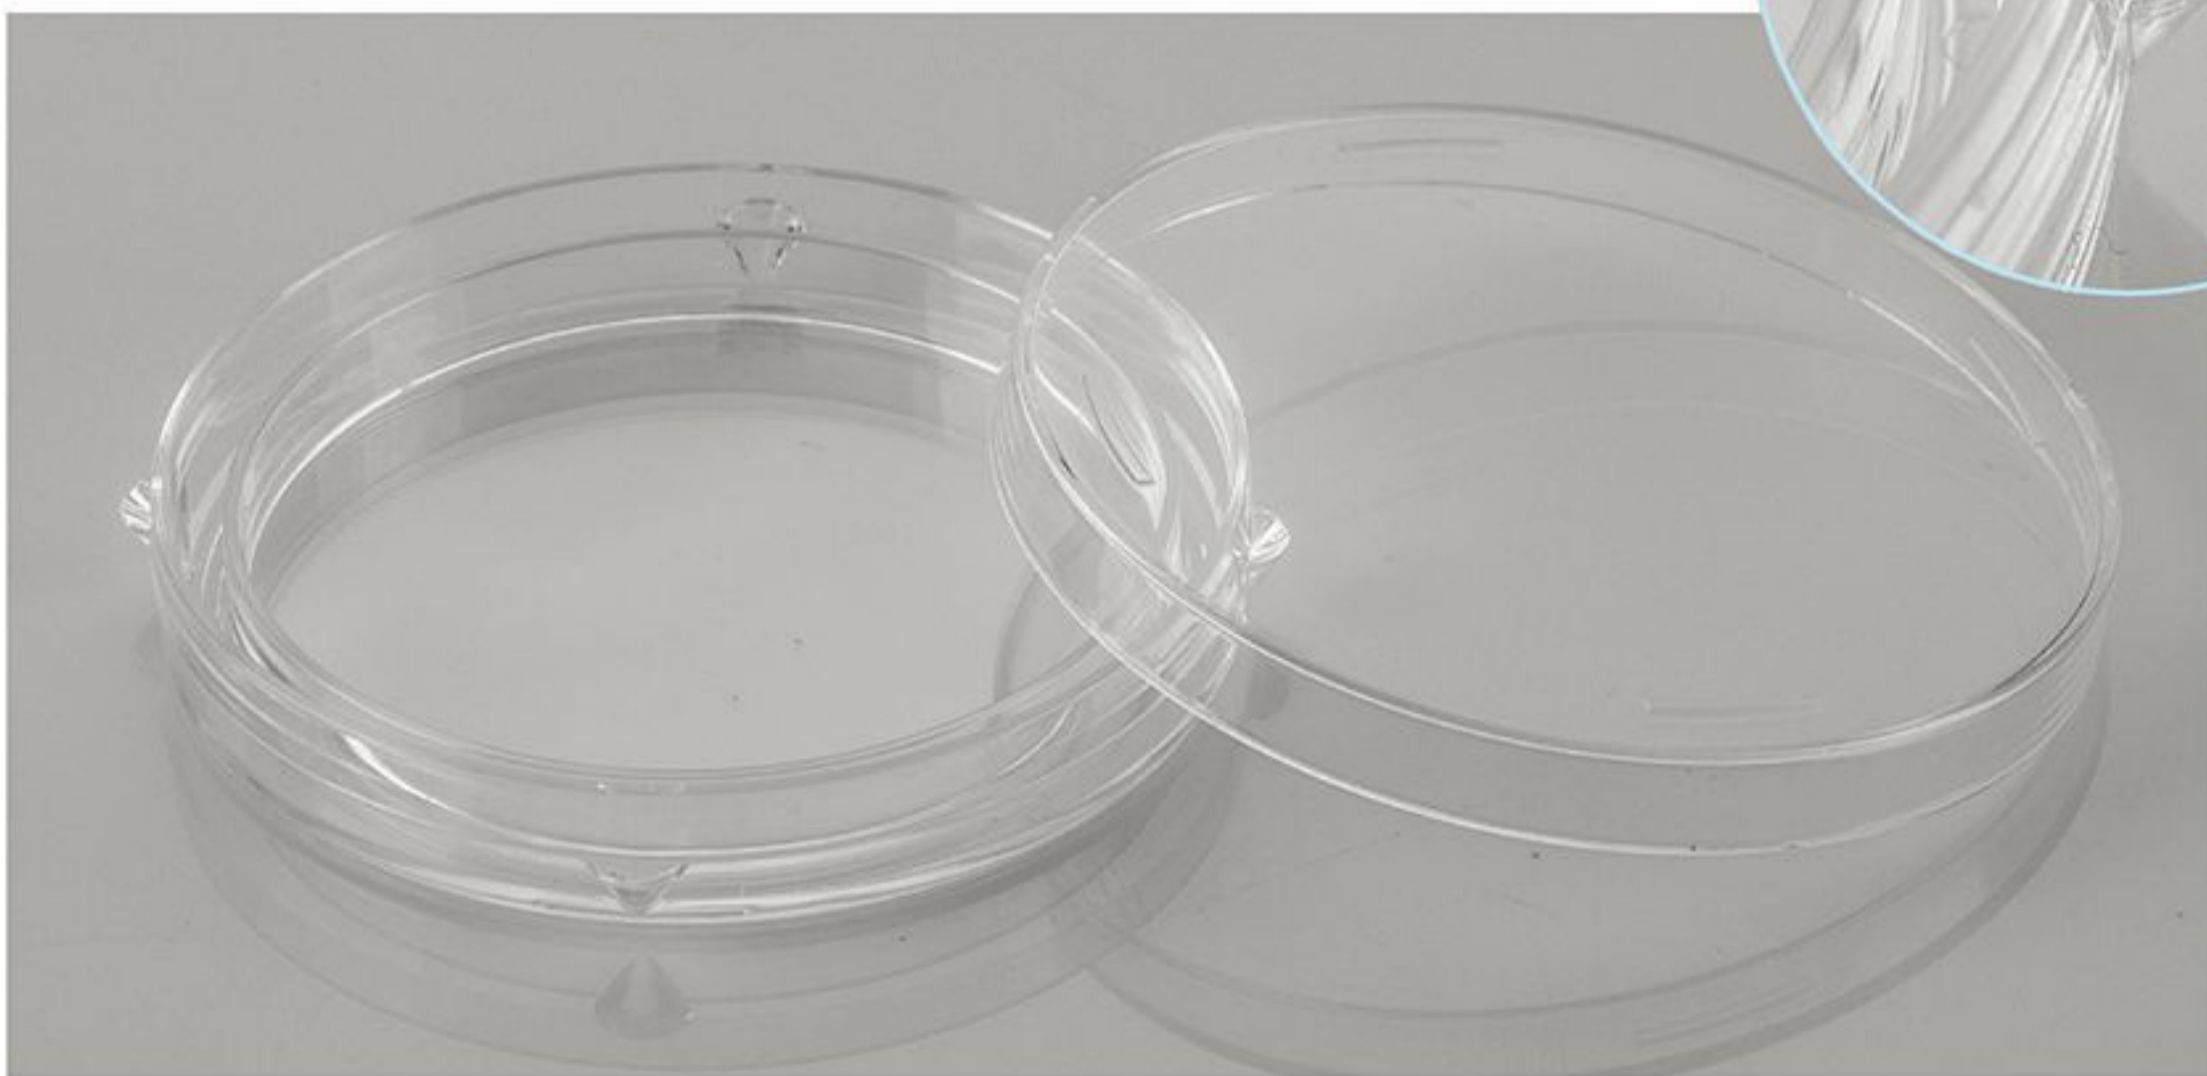

04

### 显微操作皿

Micro-operating Dish

用于显微镜下观察卵母、卵丘细胞的形态，处理卵母细胞外周的颗粒细胞群，给予卵细胞内注射精子。

It is used for observing shape of oocytes、cumulus cells under microscope, processing oocytes peripheral granular cells, injecting sperm into the ovum.

05

### 胚胎解冻皿-单孔

Embryo Thawing Dish-Single Hole

用于冷冻胚胎的解冻，恢复胚胎的生物活性。

It is used for freezing recovery of cryopreservation embryo, recover biological activity of frozen stopped.

06

### 胚胎解冻皿-三孔

Embryo Thawing Dish-Three Holes

用于冷冻胚胎的解冻，恢复胚胎的生物活性。

It is used for freezing recovery of cryopreservation embryo, recover biological activity of frozen stopped.

07

### 冷冻复苏皿

Freezing Recovery Dish

用于胚胎玻璃化冷冻与复苏；

It is used for vitrification freezing and recovery of embryo;

08

### 囊胚培养皿

Blastocyst Culturing Dish

用于囊胚培养；

It is used for blastocyst culturing;

09

### 卵裂期胚胎培养皿

Cleavage Stage Embryo Culturing Dish

用于卵裂期胚胎培养；

It is used for cleavage stage embryo culturing;

	品名	规格/Volume	包装方式/Package
05	胚胎解冻皿-单孔 Embryo Thawing dish-single hole	Φ52*12mm (皿/Dish) Φ53.5*5mm (皿盖/Cover)	独立包装 Individual Package
06	胚胎解冻皿-三孔 Embryo Thawing dish-three holes	Φ52*12mm (皿/Dish) Φ53.5*5mm (皿盖/Cover)	独立包装 Individual Package
07	冷冻复苏皿 Freezing Recovery Dish	Φ52*14mm (皿/Dish) Φ53.5*5mm (皿盖/Cover)	独立包装 Individual Package
08	囊胚培养皿 Blastocyst Culturing Dish	Φ52*14mm (皿/Dish) Φ53.5*5mm (皿盖/Cover)	独立包装 Individual Package
09	卵裂期胚胎培养皿 Cleavage Stage Embryo Culturing Dish	Φ52*14mm (皿/Dish) Φ53.5*5mm (皿盖/Cover)	独立包装 Individual Package
