## Removable 96-well elisa plates

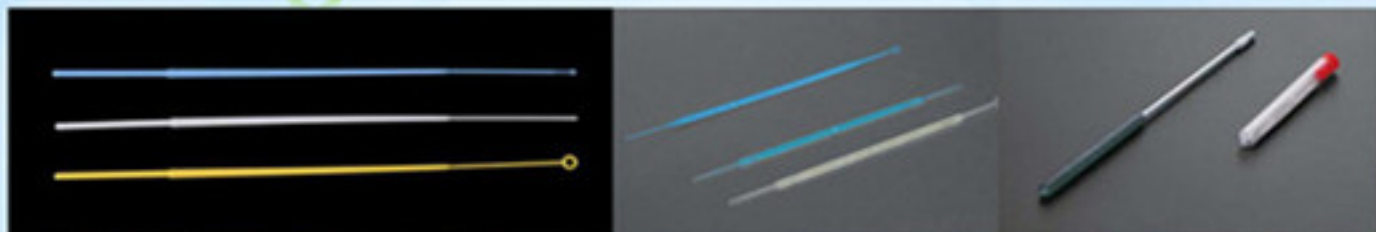

- The ELISA plate is designed for ELISA and is made of medical grade polystyrene. The reaction wells are flat and transparent, with high binding force.

Item No.	Name	Well type	Well quantity/plate	Packaging Size	Quantity /CTN
LA02019	8 pieces of removable enzyme plates	flat bottom	12	20pcs/bag× 10bags	200
LA02020	12 pieces of removable enzyme plates	flat bottom	8	20pcs/bag× 10bags	200
LA02021	96-well plate cover	—	—	20pcs/bag× 10bags	200

## Coating bar

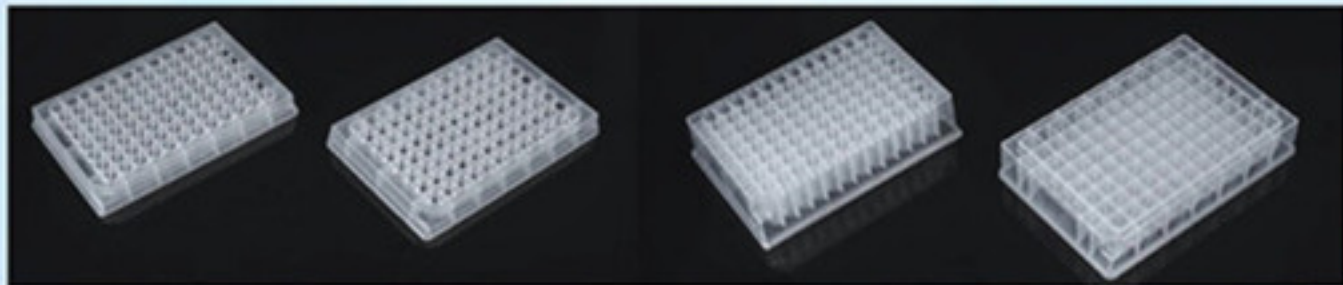

- The coating bar is made of polypropylene (PP), T-type, L-type optional.
  - The surface of the coating bar is round and smooth, reduces damage to cells or thallus, and solves the problem of contamination and uneven coating in biological experiments.
- L-type coating bar can evenly disperse the culture and spread cells or bacteria quickly and smoothly.

Item No.	Name	Shape	Colour	Packaging	Quantity/CTN
LA02033	Coating bar	T-type	Blue	1Pcs/bag	1000Bags/CTN
LA02034	Coating bar	L-type	Blue	1Pcs/bag	1000Bags/CTN
